Zero Hunger, Zero Waste

RECYCLED WATER DIAGRAM

COMPOST / FERTILIZER

Up to 23% in volume from total organic & food waste load

ZERO FOOD WASTE

- Addressing municipality landfill stress
- Environmental impacts (Methane gas)
- Reduce cost of transportation
- Curb Co2 footprint due to trucking from each sites to landfills
- Create circular economy
- Create job opportunities
- Lead by example
- Helps LEED /Green Building certification components
- CSR Branding
- Creates legacy for Green Governance to Green citizenship initiative
